For balances in favour of Customers ... 7 „

Deposits for a fixed term in specie or currency, at conventional interest.

P. P. Maua & Co.,
WLLIAM LESLIE.

MAUA BANK,

CALLE CANGALLO, Nos 101—103

The Offices of this Bank having been removed to the above spacious building, in order to suit the increasing flow of business, the public is informed that the following transactions are carried on in currency and specie in this Bank:—

First—Bills and obligations with good signatures are discounted on conventional terms.

Second—Money is advanced on mercantile and other securities approved of by the Manager.

Third—Accounts current are opened with Merchants or other parties who may prefer depositing endorsed and transferable securities, against which they may draw up to an amount previously convened under conditions established for such class of operations.

Fourth—Money is received in account current, bearing interest from day of deposit, which is accumulated in favor of the parties every three months, the depositors being allowed to retire at any time, by means of cheques, part or the full amount at their wish, save when the quantity exceeds three hundred doubloons or one hundred thousand dollars currency, in which case forty-eight hours' previous notice is required to be given at the Treasury of the Bank.

Fifth—Bills or letters of credit are drawn and taken on Montevideo, Rosario, Sta. Fé, Salto Oriental, Paysandu, Rio Janeiro, and other places in the Brazils, England and France, as also on other places, of which notice will be given hereafter.

Finally, the Bank undertakes and executes all legitimate transactions within the orbit of banking operations.

The establishment is always open from 9 a.m. till 4 p.m.

P. P. Maua & Co.
WILLIAM LESLIE.

From the 1st July, 1864, till further announcement, the rate for this class of deposits will be 8 per cent. per annum.

J. H. GREEN, Manager.

Royal Insurance Company.

FIRE and LIFE.

CAPITAL TWO MILLIONS STERLING.

This important company, in many respects the greatest of its kind in the present age, has appointed an agency in this city. The head-offices are in London and Liverpool with branches in Dublin, Edinburgh, Glasgow, Manchester, Bristol, Birmingham, Sheffield, Leeds, Newcastle, Southampton, Montreal, Toronto and other cities.

The ROYAL is remarkable; for the promptitude and liberality of its settlements: for the largest life bonuses (£2 per cent per annum) ever continuously declared during 15 years by any Co.; for the enormous extent of its transactions, shewing £'00,000 in new life assurances for 1862, and a Fire revenue of £300,000 per annum; for its security, which has given rise to the proverb "as safe as the Royal;" for the accumulated funds in hand, over one million sterling; for its annual income, over half-a-million sterling; and for the correct calculation of its mortality tables. Hence the English press of all countries, including over 96 leading papers, speaks in the highest terms of this company.

The report for 1862 shews that "all the property of the Co. amounting to £816,070 is real and substantial property:" the amount now exceeds one million sterling. The increase, during 14 years, on Fire business was 900 per cent, and on Life 1350 per cent.

Messrs. H. A. GREEN and Co. are authorised to issue policies for Fire and Life to a very large amount, at moderate premiums, the Co. being anxious to extend its foreign business, which already shews an annual revenue of £200,000. Life claims can be settled without reference to England. For further particulars please apply to

HENRY A. GREEN and Co., Ship-brokers,
85 CALLE RECONQUISTA.

Note—Prospectuses and illuminated almanacs may be had on application at the Office. X. J

American Dentist.

Dr. N. O. CORNWALL

Calle Rivadavia, 273.

ARTIFICIAL TEETH

Inserted in the neatest and most approved manner, so as to have a beautiful life-like appearance, cause no irritation in the mouth, and serve all the uses of the natural organs.

Toothache promptly relieved and radically cured.

Teeth filled with gold or metallic cements, so as to last for years or for life. Tartar cleaned off teeth, and tooths extracted, and all operations performed with the least possible pain.

Dr. P. Bourse,

SURGEON DENTIST,
Of New York,

Has removed his Office to the New Building, No. 200 CALLE 25 DE MAYO, MONTEVIDEO. The beautiful suit of rooms are fitted up in the most modern style, affording great facilities for Dental operations, combining excellent light with facility for privacy and comfort. He has recently received an addition of the most modern and approved instruments with monthly information by each European Packet of the latest and most important improvements in Dental Science. Also, by the latest improved gas fixtures, can always afford relief to those suffering from Toothache, at night as well as in the daytime.

Montevideo, May 8, 1864. x

Gabriel's Practical Treatise on Teeth, which explains the numerous advantages obtainable by their patented method, may be had of their Agents, or will be furnished direct on receipt of Twelve Stamps.

New Work on the Argentine Republic.

In the Press and will shortly be Published, in one volume, crown octavo, with Maps, Illustrations, Appendixes, and Statistical Tables,

BUENOS AYRES, AND ARGENTINE GLEANINGS,
With Extracts from Diary of Salado Exploration, 1862 and 1863

By THOMAS J. HUTCHINSON, F.R.G.S., &c. &c., H.B.M. Consul for Rosario;
Author of "Niger-Tshadda-Binere Exploration;" "Impressions of Western Africa;" "Ten Years' Wanderings amongst the Ethiopians," &c. &c.

London: Edward Stanford, 6 Charing Cross, S.W., Ordnance Publisher, Geographical Establishment, and London School Library;

And at the "Standard" Office, Buenos Ayres, where orders for the Work will be received.

This Work is to be illustrated with three Maps, one of them being Dr. Burmeister's Chart of the Argentine Republic, on which the author's journeying is traced by John Coghlan, Esq., C.E. It has besides a number of pictorial illustrations—statistical tables of the commerce of Buenos Ayres and Rosario from A.D. 1854 to A.D. 1863—records of the progress and present condition of education in Buenos Ayres—topographical descriptions of our principal public buildings—synopsis of Land Laws in Buenos Ayres as well as in Santa Fe—tables of outlay and profit in sheep-farming—tables of commerce between Rosario and the interior provinces—sketches of the habits and peculiarities of the Gauchos—illustrations of life in the upper provinces—historical, ethnological, and geographical episodes of the Salado Valley, the Grand Chaco, the provinces of Santa Fe, Santiago del Estero, Tucuman, and Cordova description of Matadero and Saladero performances—with an account of the progress of Cotton cultivation, colonization, immigration, railways, and river navigation.

Tea and Suppers, either warm or cold, from Eight to Twelve at night.
Game and Poultry are always to be found ready within ten minutes when called for.
Dinners supplied to any part of the town at moderate prices. j 2240 p

Rams—Rams—Rams.

The undersigned, in calling attention to his large and superior stock of Rams and Breeding Sheep, begs to inform his Friends in the Camp that he has on hands a splendid collection of animals, from Three Hundred to Five Thousand Dollars, mjc., and is confident that each in its class will compete with anything in the province.

In the "Rambouillet type" will be found some fine specimens of the pure blood, besides crossings from the "Merino," possessing the size, shape, and length of staple for which this class is so much admired.

In the "Negrettes" he has also some beautiful animals of pure blood, as likewise the "Negrette" drawn from the "fino Merino," a "Cria" remarkable for compact shape and close heavy wool.

In addition to the above he wishes to draw especial attention to his celebrated Argentine breed, between the "Rambouillet" and "Negrette Ewe," and which, after seven years' experience, he can fully recommend as combining size and shape with length and weight of wool—qualities so anxiously looked for by all experienced sheep-farmers, and which have given so much satisfaction to those who have already purchased of this class. In buying the above in half three-quarter, and pure blood, already acclimatized, there is an immense advantage, as Rams reared in this country are not so delicate and withstand the winter better than imported animals, besides being sold much cheaper, and only requiring ordinary care.

He can likewise supply the above classes in Ewes, either picked or by the hundred, and wishes to remark that all have been in prime condition throughout the past summer.

PATRICK BOOKEY.

Santa Catalina, July 1, 1864.

N.B.—Santa Catalina is situated five leagues south of Buenos Ayres, seven leagues from Moreno, fifteen from Lujan, and eight from Canuelas; or application can also be made at 66 Piedad, or 268 Bolivar 3 m j 22

BENSON'S WATCHES AND CLOCKS.

Watch and Clock Maker, by Special Appointment, to His Royal Highness The Prince of Wales.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock work on a large scale, the works of this are probably the finest finished that have ever been seen in this country. No Chronometer could be fitted with more perfectness or carefully adjusted mechanism." Times, June 11 1862.

"A triumph of ingenuity." Telegraph, March 31 1862.

"A more splendid and exquisitely finished piece of mechanism we have never seen." Standard, June 17 1862.

"Some of them are of great beauty and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—Times, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection." Illustrated London News, November 8, 1862.

WATCHES, adapted for every class, climate, and country, wholesale and retail. Chronometer, Duplex, Lever, Horizontal, Repeating, Centre Seconds, Keyless, Astronomical, Reversible, and Chronograph, from 200 guineas to 3 guineas each.

PARSONS, FLETCHER, and CO., PRINTING-INK MAKERS,

22 Broad-street. London.

MESSRS. PARSONS, FLETCHER and CO. have devoted for many years their best energies to the further improvement of their first-class INKS; and from the testimonies of the most eminent English Wood Engravers to the brilliancy of their Best Ink, as well as from the estimation in which their Inks in general are held, both by the leading Printers of this country and of the Continent, PARSONS, FLETCHER & CO. flatter themselves that for Depth of Colour, Clearness of Impression, and Ease in Working, their Inks now stand unrivalled.

The 'Art Journal' for July, 1862, says—'The Ink used for printing this journal is expressly manufactured by Messrs. PARSONS, FLETCHER, & CO., and combines the essential qualities of depth of color and clearness of impression, for which their Inks have long been favourably known abroad a, well as at home.'

Wood-cut Ink, 5s. and 7s. 9d. per lb.
Red, Ultramarine, Dark Blue, and other colours, 4s., 3s., 4s., 5s. 6d., and 10s. per lb.
Varnish, 12s., 15s., and 20s. per gallon.
∴ Export Orders will receive the most prompt attention with a careful adaptation of the Ink to climate.

LEA & PERRINS,
CELEBRATED
WORCHESTERSHIRE SAUCE,

PRONOUNCED BY CONNOISSEURS to be the ONLY GOOD SAUCE and applicable to EVERY VARIETY of DISH

Extract of a LETTER from a MEDICAL GENTLEMAN at Madras to his Brother in WORCESTERSHIRE May, 1851.
"Tell LEA & PERRINS that their SAUCE is highly esteemed in India, and is, in my opinion, the most palatable as well as the most wholesome sauce that is made."

SEASONABLE NOTICE.

EXTENSIVE FRAUDS.

L. AND P. having discovered that several of the Foreign Markets have been supplied with spurious imitations of their WORCESTERSHIRE SAUCE, the labels of which closely resemble those of the genuine Sauce, and in one or more instances with the names of L. & P. forged; they have deemed it their duty to caution the public, and to request purchasers to see that the names of Lea & Perrins are upon the "Wrapper, Label, Stopper and Bottle."

L. & P. further give notice that they will proceed against any one who may infringe upon their right, either by manufacturing or vending such imitations, and have instructed their correspondents in various parts of the world, to advise them of such infringements.

Wholesale and for exportation by the Proprietors Lea and Perrins, Worcester, England; Crosse and Blackwell, and other Oilmen and Merchants, London.

RIMMEL'S Toilet Vinegar

is far superior to any Eau de Cologne, as a tonic and refreshing adjunct to the Toilet or Bath, a reviving perfume and a powerful disinfectant. Its useful and sanitary properties render it an indispensable requisite, especially in warm climates.

OTHER ARTICLES RECOMMENDED—
RIMMEL'S LAVENDER WATER, distilled from Micham flowers.
RIMMEL'S JOCKEY CLUB, Frangipane, etc. of exquisite fragance.
RIMMEL'S GLYCERINE, Honey, Windsor, and other Toilets Soaps.
RIMMEL'S LIME JUICE, and Glycerine for beautifying the Hair.
RIMMEL'S PERFUME VAPORIZER, Perfume Fountains, etc. etc.

Sold by all Perfumery Venders.
E. RIMMEL, Perfumer to H. R. H. Princess of Wales.
96, STRAND, and 24, CORNHILL, London.

ELLWOOD'S PATENT AIR-CHAMBER HAT
ELLWOOD & SONS LONDON
FOR INDIA

J. ELLWOOD & SONS,

PATENT AIR-CHAMBER HATS and HELMETS, the only suitable Head Dress for India and Tropical Climates, being not only the coolest and most comfortable, but also by far the most durable, and consequently the cheapest Head Dress in use.

CAUTION.—No Air-Chamber Hats or Helmets are Genuine unless they bear the above stamp with either Ellwood and Sons, or the Sellers' name in the Shield.

The Patent Air-Chamber Hats and Helmets may be obtained by the Public of several of the principal Hatters &c., in London, and the chief towns in India, and by the Trade of the Patentees. The international Exhibition Prize medal was awarded to

J. ELLWOOD AND SONS,
WHOLESALE MANUFACTURERS OF HELMETS HATS AND CAPS OF ALL KINDS,
Great Charlotte Street, London, S.

Ranges, Stoves, Portable Farm Boilers,

Plain and Ornamental Iron Work, Grates, Chimney Pieces, &c.

WATSON, GOW, AND CO.,

LILLYBANK ROAD, GLASGOW,

Sole Manufacturers of Watson's Patent Close and Open Fire Kitchen Ranges, American Cooking and Heating Stoves, American Portable Farm Boilers, Steam Cooking Apparatus, Gill Air-Warmers, Hot Air and Gas Stoves, Register Grates,

ORNAMENTAL IRON CHIMNEY-PIECES.

Stable Fittings; Hot Water, Rain Water, and other Pipes; Pumps, Boilers, Pots, Dutch and Camp Ovens Cart and Dray Bushes, Gates, Railings, and every description of Plain and Ornamental Castings and Iron Works, suitable for Merchants, Ironmongers, Plumbers, &c., either in the Colonial or Foreign Markets.

A CURE TO BE HAD FOR A TRIFLE.

BY

HOLLOWAY'S OINTMENT.

Gout, Rheumatism, Enlargements and Stiff Joints.

A cure of these complaints is within the reach of the most humble, by fomenting the affected parts with warm salt and water, and rubbing in Holloway Ointment twice a day. Thousands have been cured who looked upon Gout and Rheumatism as incurable. The same treatment should be employed for the removal of chalk stones, and all painful enlargements or stiffness of the joints. In such cases the Pills should be taken according to the printed directions.

Bad Legs, Bad Breasts, and Ulcerations of all kinds.

The cure of ulcers has won for Holloway's Ointment an imperishable reputation, as this healing Ointment will restore any case, however bad, to soundness. Many bad legs arise from imprudence, happening several years before and almost forgotten; if then there be any doubt as to the origin of the sores, the patient should read carefully what is written on secondary symptoms in the Book of Directions, as those sores never heal soundly until the system has undergone a thorough course of Holloway's Purifying Pills.

Coughs, Colds, Sore Throats, Diptheria, and Bronchitis.

Any of the above ailments may be quickly cured if the Ointment be well and effectually rubbed into the neck and chest twice a day, leaving the parts constantly covered with a rag spread with the preparation: if this treatment be adopted promptly, in six hours it will effectually stop the most alarming symptoms. It must be evident that an outward application applied to the seat of the disorder must be more effectual than any that can be taken by the mouth. Holloway's Pills should be used according to the directions in order to subdue Irritation, Inflammation, or fever.

DROPSY.

This fearful disease often makes its appearance between the ages of forty and fifty, and might generally be prevented by attending regularly to the proper action of the liver and stomach; these organs, at this time of life, have a great tendency to derangements, when asthma, dropsy, or disease of the heart often sets in. The blood requires frequent elimination which no other medicines can so effectually perform as these purifying Pills, as they purge gently, and act immediately upon the liver and stomach, and thus remove all obstructions which at the turning point of life always occur. This dangerous period should be closely watched; two doses a week of about six Pills will ward off all dangerous diseases. But in all cases of dropsy the Ointment is a wonderful and sovereign remedy, and must be effectually rubbed twice a day into the suffering parts.

Youthful Indiscretion.

How many poor women suffer from the indiscretion of husbands, which results in bad legs, swellings, loss of health, and rheumatism—as they suppose, although it is nothing of the kind—but the effect of a certain disease taking hold of the system. No ordinary medicine can cure them, because the disease has sunk deep into their constitution. Children often have sores, and bad heads, which do not heal, for the reason that contamination occurred before their birth. Let all who may suffer from such causes have recourse to the purifying and healing properties of these wonderful Ointment and Pills, observing carefully what is said in the book of directions on Secon ure of toms, which, if strictly followed, will effect any c the kind, but it will be a work of little time.

Both Ointment and Pills should be used in the following disorders:—

Bad Legs	Chilblains	Fistulas	Sore-throats
Bad Breasts	Chapped (Hands	Gout	Skin-diseases
Burns	Corns (Soft)	Glandular (Swellings	Scurvy
Bunions	Cancers	Lumbago	Sore-heads
Bite of Moschetoes and Sand Flies	Contracted and Stiff Joints	Piles	Tumours
Coco-bay	Elefantiasis	Rheumatism	Ulcers
Chiego-foot		Scalds	Wounds
		Sore Nipples	Yaws

Sold at the Establishment of Professor Holloway 244, Strand, (near Temple Bar,) London and by all respectable Druggists and dealers in Medicine throughout the civilized world, at the following prices:—1s. 1½d., 2s 9d., 4s. 6d., 11s., 22s., and 33s. each Pot.

∴ There is a considerable saving by taking the larger sizes.

N. B.—Direction to the guidance of patients in every disorder are affixed to each Pot, and can be had in any language, even in Chinese.

Holloway's Ointment and Pills.—Experience before Authority.—For nearly the third of a century have these remedies stood in the foremost rank for overcoming ulcers, sores, swellings, rashes, and all descriptions of skin diseases. At first the faculty denounced these medicaments, but the experience of sufferers soon overthrew all interested opposition. Those whom Holloway's Medicines had cured told other invalids the benefit they had derived from their use; those in their turn tried them, found equally satisfactory results, and thus are these admirable curatives used and prized throughout the habitable globe. The Ointment has always been applied with the most marked success in bad legs, erysipelas, varicose veins, swelled ankles, and numberless other infirmities, by which thousands around us are sorely oppressed.

TUESDAY, JULY 26, 1864.

REVIEW FOR THE BRITISH PACKET

Owing to the French packet having sailed a week before her usual time, in order to make some repairs in Rio Janeyro, our review for home readers embraces three weeks instead of a fortnight. Congress is still sitting, and has passed several important laws, which, we have no doubt, will interest our foreign readers:—1st. A bill granting a concession for the construction of a telegraph line between this city and Montevideo (the concession was published in full in last week's 'Weekly Standard.') 2nd. A bill authorising the payment of a monthly subsidy of 800 silver dollars to a company which proposes to build a steamer in England, adapted for the navigation of the Upper Uruguay. This concession, it is thought, will lead to the opening up of the traffic in those distant yet rich parts, and will also aid in the realisation of the proposed railway line from the town of Concordia to Restauracion. Such a line of railway, we have no doubt, would pay well, as the produce of the countries above the Uruguay falls have no possible exit, save by means of such a railway.

A society, for the free transmission of emigrants from this city to Rosario, has been established and subsidised by the Government; and as the most active men of Rosario are directors of this society, it is hoped that it will facilitate immigration to the interior provinces.

The subscription to the stock of the Argentine Central Railway still continues. The largest stockholder in the country is General Urquiza, of Entre Rios, who, true to his former promise, subscribed for one thousand shares, and forwarded to Mr. Armstrong, the representative of the company, two thousand five hundred pounds sterling, as a deposit on said shares. The political opponents of General Urquiza, many of whom are richer than the General, have, notwithstanding all their protestations of patriotism, &c., failed to give so sterling a proof of the sincerity of their professions as this much-abused man. The Argentine capitalists of Buenos Ayres have been most niggardly in their support to the company, fifty shares being considered as a most extraordinary investment, and the ordinary subscription from one to five shares. The National Government has very properly subscribed for two thousand shares, and paid the deposit money, and the Government of San Juan purposes selling to Major Rickard the 120 shares, which it holds in his Mining Company, and subscribing for a like number of shares in the Argentine Central Railway Company.

Probably one of the most important projects, is that of an English Bank in Cordova, capital £200,000, with right to emit convertible bank bills for half a million sterling. The Governor of that province is said to be most favourable to the enterprise, and the matter has been sent before the legislature, where it is generally believed it will meet with little opposition. There is positively nothing more wanted in the provinces than a good circulating medium. The Maua Bank has its branches in Rosario, Corrientes, and Gualeguaychu, but these are all river towns. The inland capitals of the various provinces should also have their banks; they would help to develop the industry of the country, and be of the very greatest convenience to the whole nation. In one of our most distant provinces, La Rioja, the borings have commenced for an Artesian well. We hope the engineers will succeed, but we have strong doubts, as the enterprise has proved a complete failure in Buenos Ayres.

It affords us no small gratification to be able to assure our foreign readers that the state of the country is rapidly improving, and that in a political, social, and industrial point of view, the Argentine Republic is making giant strides of progress. The saladeristas along our rivers are all busy, cattle are cheap and fat, and this great staple business, which for the last few years has been languishing, is now yielding splendid profits.

The sheep-farmers of Buenos Ayres and Entre Rios are also doing well, the grasses being very abundant, and the flocks in superior condition. We notice that each day the number of our sheep-farmers is increasing. Englishmen are now no longer limited to the province of Buenos Ayres, but are settling down in Santa Fe and Entre Rios; the former province adjoins that of Buenos Ayres, and is now the favorite locality, owing to the proximity of the lands to the new Argentine Central Railway Company. These lands are at present being bought up by our countrymen at a comparatively low cost, about £600, per square league, and offer many inducements to the foreigner with slender capital.

In Buenos Ayres business is rather dull at present, this being winter, and we are all engaged discussing a project for the redemption of the paper money, which the National Finance Minister is about to introduce into Congress. Specie, which a few days ago ruled so high, has fallen considerably, as the Government purposes putting a fixed value of 25 paper dollars to the silver dollar. As the Provincial Government of Buenos Ayres has ratified the proposed measure of the National Government it is generally believed that the bill will pass.

The extension of the Northern Railway to Zarate is also before the Legislature, and we learn upon the very best authority that the Government of Buenos Ayres will grant a guarantee of 7 per cent upon the capital necessary for such extension. We regard the prolongation of this line to Zarate as highly beneficial to the stockholders as it will convert the Northern Railway from being an insignificant accommodation line to that of a grand trunk line; it will pass through three or four of the richest districts in this province, Pilar, Capilla del Señor and Zarate, and will command a freight and passenger traffic second to no other railway in the country.

The new traction engine 'El Buey' has at last arrived, and is being put together; it will shortly be ready to run on our roads, and we hope will prove a success.

There is a project for the construction of floating docks, which is under consideration, and we hear likely to be passed; the concessionaire we are informed is an Englishman. Several other projects are also before the Government, but at present we have not room to enumerate them. The Maua Bank has established a new branch at Gualeguaychu, and we believe is about to open several others in the interior provinces, where they are much required. The River Plate Bank is doing a very good business; the consulting director Sr. Riestra is at present acting as Governor of the Province of Buenos Ayres, owing to the temporary absence of Sor Saavedra. Paper money is improving in value and abundant, and foreign coin freely circulates at all the shops and hotels in town, at the values established by law.

Immigration is not so active as we could wish; we want hard-working labourers by the thousand, as the wages at present paid are exorbitant, owing to the great scarcity of hands. Young men with small capital are coming out in each packet. They as a rule invest in sheep and cattle farms, and are all doing well on their new estancias; peace reigns throughout the provinces, and civil war we are happy to say is unknown in the Argentine Republic.

STATE OF THE ARGENTINE PROVINCES

(From the Farro-carril)

We are happy to be able to commence our review with the gratifying intelligence that the peace and tranquility of this beautiful country are undisturbed, and that day by day its progress is becoming more marked and palpable.

The Congress continues its sittings. One of the most remarkable projects that has been offered for its consideration is one presented by Messrs Oroño and Zuviria, the one member for Santa Fe and the other for Cordoba.

The principal points in this project that will interest our foreign readers are, first the loan which is required for two millions of dollars for the carrying out of the idea, and secondly, the scheme of bringing out one thousand families of immigrants to colonize the new line of frontier on the Rio Negro at the South, and the Rio Vermejo at the North; both lines to be protected by adequate forces of troops adapted to the frontier service.

The project is bold, and if carried out, will completely settle the Indian question in this country.

The province of Santa Fe, is still showing a bright example to the rest of the Republic.

The arrival of Mr. Wheelwright and the first vessel loaded with rails for the Great Central, have filled the people with enthusiasm.

But we are feeling the effects of the great change that the railroad is sure to operate, in other ways than the enthusiasm of the town.

People from England, from the United States, from Buenos Ayres and the Uruguay Republic, are pouring into the country; not poor immigrants, but men of capital, to purchase and rent lands in the province.

We consider it a very important item of news, the fact of the arrival here of Samuel R. Phibbs Esq. Argentine Consul in Liverpool, commissioned by the railroad company to examine the lands conceded by the Government in the contract with Mr Wheelwright.

Mr. Phibbs has been engaged, with the activity for which he is distinguished, on this important mission. He has just returned from Cordoba, and we have reason to believe that his report will be extremely favorable.

This is of course preparatory to immigration schemes on a grand scale, as the Railway company must justly consider the colonizing of the large tract of land that has passed into their hands, as a very important corollary to the opening of the Rosario and Cordoba road.

The National Government has, by decree, established an Immigration committee in Rosario, and which was announced in a former review, it had determined on doing.

This committee will have considerable sums placed at its disposal for the object of furthering immigration to this and the other provinces; and will aid undoubtedly the patriotic designs of the National Government.

The President of the committee is a gentleman with European experience Sr D. Emiliano Frias.

The secretary is William Perkins Esq. and the treasurer D. Pedro Lassaga.

Mr. Oroño, while Deputy Governor of this province, during the first half of the present year, amongst many excellent projects, presented one on Public Lands. This will in all probability pass the Provincial Chambers.

It is based on the celebrated Homestead Law of the United States, and is the first attempt in this country, on a large scale, to legislate in favor of immigration on the base of liberality in reference to public lands.

The arrival of Mr. Wheelwright will be the signal of great activity on the works of the railroad, and we may confidently predict that the whole route to Cordoba 240 miles, will be completed within three years.

The reception which Rosario offered to the man who, with such admirable constancy has, after years of labor, succeeded in his grand project, was as may be imagined, enthusiastic.

The electric spark seemed to have pervaded all classes of society, and poor women held their children over the heads of the crowd to enable them to get a glimpse of the great personage who brings prosperity and peace to the provinces of the Argentine Republic.

From the press of the 'Ferro-carril' has been issued an edition of the 'History and Progress of the Colonies of Sta. Fe.' As an auxiliary to the schemes of immigration it will be found very important, as the work of social history of the colonists who, in number of about seven hundred families, are now settled and flourishing within eighteen miles of the capital of Santa Fe.

Another work which embraces a much wider range, written by our distinguished friend Thomas J Hutchinson, Esq, H. B. M. Consul in Rosario, is about to be published in London.

Mr. Hutchinson has made himself noted in this country by his indefatigable labors in behalf of immigration and his efforts to make this country thoroughly known in Great Britain.

The mining interests in San Juan are improving every day. By every mail we receive fresh news that leave beyond any doubt the wonderful richness of the great mining district of the Andes.

Our excellent Home Secretary, Dr. Rawson, does not seem to have made up his mind as yet in reference to the Exhibition proposed by the editor of this paper, and which would so materially aid the development of our infant industry, and prove to the European world the inexhaustible resources of the Argentine Republic. We have not however lost hope that the National Exhibition will be a great fact at the commencement of next year.

EDITOR'S TABLE

The Provincial Chamber of Deputies is still busy with the law of elections: it is likely the bill will pass through this and the higher Chamber before the close of the year. If Dr. Alsina's code of Camp Reform be finished by that time we may expect it to occupy the Provincial Legislature during 1865, after which year said code will be unnecessary, when railways and traction engines will have abolished bullock waggons, chiripas, alcaldes, potro boots and other relics of a barbarous age.

The Uruguay leaves to-day for Liverpool via Montevideo. The Mersey leaves to-morrow with the mails. The French packet is due on Friday, but may be expected the day previous.

On Sunday morning a grand breakfast was given on board the Fairy, over 80 persons being invited. We have not heard how it went off, but hope some one of the guests will favor us with a report.

The collection for the American Sanitary Committe goes on actively both here and in Montevideo. Sor Pestalardo has kindly promised to give the opera of *Marta* for the benefit of so charitable a purpose. Rumor also speaks of amateur theatricals at the French theatre. The fund will ultimately reach several thousand silver dollars.

Fresh revelations come out every day respecting the fugitive Herr Hermansader, alias Doctor John Henry Bell. He has "stuck" Mr. Eastman for 5000 dols. in surgical instruments and Messrs. Cranwell and Murray in a smaller sum: the latter were entirely duped by his coming the "religious dodge." Vidale has lost not 1300 dols but 3000 dols, in hosiery. It is remarkable that the persons now victimized were also taken in by Steenbock, who at present keeps a grocery and ship-chandlery in Rio Janeire. Perhaps Hermansader will go in partnership with him: birds of a feather.

On Sunday evening, at five o'clock, an English house in Calle Tucuman was entered by some thieves, who carried off a cloak and overcoat, while the family was at dinner. The thieves have not been detected.

By notice in another column it will be seen that the Cricket Club holds a meeting on Wednesday evening. We understand they have secured a new and suitable cricket ground near Palermo station, rented from the Municipality of Belgrano.

Sheep-stealing has assumed a new form. A vessel has been seized in San Fernando, with several hundred sheep stolen from Banda Oriental, supposed to belong to the estancia of Sor. Gonsalez Moreno. The estancieros had better keep a sharp look-out.

On dit that Mr. Thornton will leave this city in a few days, for Paraguay. Our Minister is rather well regarded at Asuncion, and we wish him a pleasant voyage.

Mr. Wheelwright has fixed his permanent residence at Rosario, where he will personally superintend the active prosecution of the Central Argentine Railway.

The function at the Merced on Sunday was very grand. All the Vincentians assembled to honor their philanthropic patron: the singing was first rate, and the ceremony impressive.

We learn that another prima donna has arrived and will shortly make her *debut* in Colon theatre. It is rumored that Mme. Briol intends leaving us: we shall be very sorry to lose her.

The 'Nacion' reports a woman residing in calle E. Unidos to have thrown herself into a well on last Friday. She was taken out alive but much bruised, and declared as a motive that "she was tired of life." In the same paper we read of a brick-layer blown off a scaffold in calle Suipacha, who is also much injured.

It is amusing how all our colleagues erroneously announced M. Wheelwright's departure on Sunday, when they might have read in this paper that he had gone last week. But the 'Nacion more than compensates for such oversight, by treating us to a sound, logical article on European civilization and its influences here.

MR. WELLS' BALLOON ASCENT.

Contrary to expectation, Sunday turned out a very fine day, and as the preparations for Mr. Wells' ascent attracted crowds of pleasure-seekers, the Plaza soon presented an animated appearance. The work of inflating the balloon with heated air was begun at noon, and occupied nearly three hours. The police let off a number of rockets as notice to the citizens of the ascent about to take place, and by two o'clock there were assembled over 10,000 persons, the Cabildo, Municipality, and Cathedral fronts being lined with fashionable ladies and gentlemen. It was remarked that even in Buenos Ayres such a collection of handsome women has seldom been seen before. The balloon, as gradually filling with air, began to rise to its full dimensions, and monopolized the public gaze. The name "Buenos Ayres" appeared in large letters, and on the opposite side the legend, "Viva la Republica Argentina!"

At 2:45, when about three-quarters full, the ropes suddenly broke, the canvas giving way on one side. Immediately a lad rushed forward to catch one of the cables and his foot got inextricably entangled. Mr. Wells saw the urgency of the moment and, in order to save the boy's life, and the balloon, leaped into the car, and gave the signal to let go. The Æronaut was soiled and begrimed with smoke, and as he grasped the "Stars and Stripes," and loosed cable from terrafirma, it was impossible to recognize him but for his Mosaic beard. In less than a minute the balloon rose above the tower of the Cabildo, and the boy held on by a thin rope, while the crowd absurdly shouted "let go," "jump down." But it was too late, and as the "Buenos Ayres" rapidly soared into space he contrived to slip down and seat himself on top of the parachute, while Mr. Wells waved the American flag from the little car. Nervous people expected every moment to see the boy compelled by fatigue to relax his hold and fall lifeless to the earth. It was even thought Mr. Wells and the car would share the same fate as many of the ropes were broken, and the latter hung at an angle from the balloon.

Certainly the public was full of admiration for the daring adventurers, and anxiously watched them sailing up, with a slight N. E. inclination, to a height of over 1,000 yards, until the boy could only be distinguished as a black speck on the parachute, and Mr. Wells' flag was no longer visible. At 3 o'clock they were over the Hotel de la Paix, and the balloon seemed to hang motionless in the still air, during five minutes. It then perceptibly travelled towards earth, and soon the sails of the parachute became distended, opening as if by a spring, in the form of an umbrella. But it was evident the breaking of the ropes had disarranged the contrivance, although in any case Mr. Wells could not cut away the parachute without exposing the boy to certain death. Some inhuman spectators were nevertheless disappointed at seeing the balloon and parachute come down in the direction of the beach. At once there was a rush towards Paseo Julio, and in five minutes the mole was black with people. The Alameda held some 6,000 persons, and it was seen that the balloon had fallen about 500 yards from the gas house, alongside of one of the steamers. Mr. Wells had on a life-belt for such emergency but the boy was wholly unprepared with any safe-guard, and must have perished if the balloon had fallen some miless out in the river. Fortunately they were picked up without delay, in a small boat, and the balloon heeled over, almost touching the water. The same calamity as befel Mr. Wells in his last trip was nigh repeated, for the balloon began again to rise some 20 feet, and threatened to drag up boat and all, but after a few minutes, its power being evaporated, it fell upon the water, giving up the combat and yielding like a vanquished gladiator.

Numbers of small boats put out in the direction, and in half an hour Mr. Wells and his companion landed, proceeding at once to the Capitania, thence to salute the admiring public.

There was an inquiry about the boy who had just made so perilous a journey, and the report got wind that he was a waiter in the Cafe del Plata. Thousands of people went to see him, in the evening, and the Cafe did a splendid business, as we are informed. When asked how he liked his excursion, he declared that he was taken unawares, and had to hold on, like grim Death, to a rope half an inch thick, but the journey was so new and pleasant, 'he had no objection to go up again' We understand, it is proposed to get up a subscription in reward for the hair-breadth escape he has had.

But the funniest part is yet to come. It appears the real boy had nothing to do with the Café del Plata, and is a Swedish sailor youth who came here with Mr. Wells and aids him in his labors. When we remember how expertly he mounted the ropes and firmly held on at a height so dizzy as to make a landsman reel, the latter story is more likely, and the Cafe affair seems a clever trick. Many say that he did not go up by accident, but by pre-arrangement, to prevent Mr. Wells exposing his neck in coming down with the parachute.

Be it as it may we feel bound to render a tribute to the daring and *sang-froid* of both excursionists, and we hope the Municipality will make no difficulty in paying Mr. Wells.

PRISONERS AND GAOLERS.

The public is ignorant of many abuses existing in our prison regulations, as will appear by the following case. It is at the same time a cheering reflection, that the Criminal Judge is active and inflexible in seeing the sentence of the law carried out.

Some four years ago a fellow (we believe French) who kept a money-changing office and coffee house on the beach, was detected doing a little business in the forgery line, and circulating false notes. Being tried and convicted, he was sentenced to six years imprisonment. But it seems the alcaide took compassion on him, and restored him to the bosom of his afflicted family on condition of his paying a daily visit to the scene of his supposed penance. The Criminal Judge, Dr. Langenheim, hearing of this, proceeded in person accompanied by Commissary Pacheco to the criminal's house, and there found him behind the counter: he arrested him and lodged him in prison. On enquiry, the second Alcaide sought to deny all knowledge of the matter; the clerk of the guard, however, confessed that the man used to enjoy a free exit during the past seven months, but he thought it had been so ordered. The *denouement* is that the Alcaide disappeared, and the forger has been put up to serve out the two remaining years of his apprenticeship.

When we remember the recent escape of four murderers from prison, and compare it with the above revelations, the reader may form an accurate idea of the value of our city prison and the convenience of abolishing capital punishment so as to give the murderer a chance of returning to his pursuits.

THE RAILWAYS OF B. AYRES

The Great Southern, in spite of bad weather, progresses rapidly. There are 40 kilometers (over 20 miles) of earthworks concluded, including four miles beyond the town of San Vicente, and two miles of the Zamora section laid with rails. There are over 700 men at work, the number having been reduced on account of the weather, and a large gang is working at the Samborombon section. No fewer than nine vessels are expected with locomotives and materials.

The Boca and Barracas line goes on slowly, only about 60 men being at work, and the want of sleepers checking operations. The earthworks and rails are completed between the Riachuelo and the Yellow House for nearly three miles. It is calculated the line will be ready for traffic by November, before which time the locomotives, &c., will have arrived. Government has not yet decided the important question—how the line will run from the Yellow-house to the Custom-house.

The Western prolongation pushes ahead, the works being complete half way from Villa Luxan to Mercedes, and they lay the rails as they go along. It is likely the line will be open to Mercedes by Christmas.

The Northern prolongation to Zarate is before the Chambers, and will, no doubt, pass. The contractors to San Fernando, Messrs. Murray and Mills, are selling off; it seems the prolongation contract will be taken by another firm.

The traction engine El Buey, is not yet ready for its trial trip, and has lately been landed at Barracas. The general opinion is, that it will prove unsuitable for our soft, marshy roads.

GREAT NEWS FROM ROSARIO

Arrival of Mr. Wheelwright

On Thursday morning the Fairy came in sight with bunting, and the glad news ran like lightning that Mr. Wheelright was aboard. The Municipality had prepared some carriages; a band of music and rockets, for his reception. The great regenerator, however, preferred going on foot to the Grand Central Hotel in Calle Puerto. Here a lunch was laid out, and after receiving the chief local personages, he sat down at table with the Municipality and Railway Committee. The band played outside, and a large crowd assembled to gaze on the man whose name is identified with the future of the country. Several toasts were given and the guest of honor made a few observations which were enthusiastically applauded: he said that the Central Argentine railway was at last a practical fact and would be completed to Cordoba in 3 or 4 years. He thanked God for permitting an old man of 67 years to carry out so great an enterprise and prayed he might be spared until its termination.

He was accompanied to his house by the citizens, and at night the plaza was illuminated, bands of music playing a serenade before his windows, and the police firing off rockets, to close so happy a day.

The engineer corps is expectected per steamer, by August 1st, by which date will probably have arrived the vessel with a locomotive and waggons. It is hoped soon to run a train on the ten miles of road already made and only waiting for rails.

Latest from the Provinces

Dates from Rioja, 1st inst., Catamarca 8th, Cordoba 17th, and Rosario, 23rd instant.

The Government of Santa Fe has ordered the re-establishment of Fort Sunchales for the protection of that road,

from the Indians, it being the shortest route to Santiago; a garrison of 50 men is required.

From Cordoba we hear of another Indian invasion, 14th inst., near Morteros, in which 140 savages surprised Colonel Perez and 20 men: three of the latter were killed, the rest escaped.

In Rioja everything is again quiet. The new Governor, Julio Campos, arrived, and on June 28th was sworn in; he named Don Anjel Blanco his Prime Minister, but the latter refused the honor.

A meeting is to be shortly held at Parana, to get up in that town a branch of the Entre-Rian Bank. It is rumoured that the clergyman placed 'dignissimus' on the terne for episcopal honors is not remarkable for profound requirements.

MONTEVIDEO.

The condition of the Oriental Republic is at present so lamentable that it could hardly be worse. The negotiations with Flores having failed, law and order are again at the mercy of every gaucho in arms. The latest intelligence is the invasion of the frontier districts by a Brazilian General named Netto, at the head of 2,000 men. He is said to be a filibuster, fighting on his own account, but it is just as likely that the Emperor, Dom Pedro, winks at his proceedings, like Victor Emmanuel in the expedition to Sicily, under Garribaldi. The President and his Minister of War are said to be hemmed in at Canelones, en route for Moreno's head-quarters, by the rebel outposts.

In commercial circles the event of the fortnight has been the failure of Sor Maza in half a million silver dollars.

PARAGUAY.

The Republic, under the happy influence of peace and wise administration of President Lopez, continues to progress with marvellous rapidity. Three sections of the Asuncion and Villa Rica Railway have been opened to traffic, within the last five months. Telegraph wires are being laid down, to unite the chief towns, the arsenal is busy, a new steamer on the stocks, and industry of all kinds going ahead. We have no news of cotton: the mails are due to-day.

PAPER MANUFACTURE.

We have received from Mr. Beare some valuable plans, estimates of machinery for the manufacture of paper either from rags, wheaten straw, or other fibre, and a collection of samples of wheaten-straw paper. Parties taking an interest in this matter can examine them at our office.

Mr. Beare promises to write us fully on the subject as soon as he has finished the erection of his traction engine.

ANOTHER RICHMOND

Beside the Swede and hotel-waiter who claim to have accompanied Mr Wells on Sunday, the 'Nacional' brings a third pretender, in the person of Antonio Premazzi, a native of Lombardy, aged 16, and residing at 123 Independencia.

American Sanatory sub-Committee at Montevideo

Buenos Ayres, June 28, 1864.

Dr. Peter Bourse, Montevideo;—

Dear Sir:

At a meeting of the Committee appointed by the American residents in Buenos Ayres, to collect funds for the United States Sanitary Commission, the following resolution was unanimously adopted.

Resolved, That Dr. Peter Bourse, of Montevideo, be requested to act as a Sub-Committee, in Montevideo, and to associate with him two Americans to assist in collecting any contributions in that place.

Gardner B. Perry, *Sec.*

The subscription list is now open and ready for the signatures of all those benevolently disposed, at my office, No. 200 Calle 25 de Mayo.— Montevideo, July 11, 1064.

Peter Bourse,
Carlos W. Parsons, U. S. Consul.
Edward E. Blyth.

Emporio de Luz, Calle Ituzaingó, No. 1000.

Fourth of July at Pergamino.

Estancia de Santa Isabel, July 19, '64.

Messrs. M. G. & E. T. Mulhall;

Dear Sirs:—

Please find enclosed a few remarks made by Mr. Richard Jacobs, on the 4th of the present month, which it might be well to notice in the "Standard." Mr. Jacobs, had invited a few of his friends to celebrate the 88th Anniversary of our glorious Independence, and partake of a bountiful repast prepared by his good lady — and I will here add, the table would have done credit to any of your hotels in Buenos Ayres, and certainly was deserving of no small credit here in the former desert of the pampas of this province, where a little more than two years since the people from Pergamino hardly dared walk through fear of the Indios. And who knows but the very spot where his house stands might have been an encamping ground during some of the late invasions. It is about three leagues from Pergamino. Many of the town people were present. After many exciting races, running for the sortija, &c., &c., just as the sun was disappearing the two flags were lowered, (the Stars and Stripes, and the flag of our adopted country), the salute was fired, and the two National Hymns were sung. Mr. Jacobs, not content with having the flags wave over us during the day, had them placed over our heads in our respective places at the table, one at the North and the other at the South end, and for more than three hours a more convivial party could not have been assembled. Sympathizers for liberty were not wanting; neither were the Peruvians forgotten. After dinner was over we went to the sala and there singing and dancing was kept up till the next morning. I forgot to say that the healths of the two Presidents were proposed and drank with "three times three." Champagne corks flew as fast as at the American Minister's, and likely many of the same toasts were drank. "Our Flag," "Our once prosperous Nation," &c. &c. The Star-Spangled Banner was sung by Mrs. Jacobs and her daughter. No less than five violinists were present. One flute player, Mr. Barber, from San Nicolas, promised to forward a copy of the proceedings to your office.

Please excuse the liberty I have taken, and I remain,

Respectfully yours,
Jonathan E. Stickney.

[Ed. Note.—The remarks alluded to being in Spanish, we cannot undertake to translate them. All MS. should be in English.

OLIDEN BEEF.

Don Tomas Oliden has received the following satisfactory letter from D. Javier Alvarez, of Montevideo, and as it is of public interest we accede to his request to publish it:—

Montevideo, July 21, 1864.

Dear Sir,

I received your favor of the 11th, but have been unable to reply before the present. I am glad to learn that the result of beef cured by your system and shipped to England has been so successful: it is a matter in which I have felt a lively interest during two years, as I consider it a source of national wealth. Have care and confidence in your labours, and there can be no doubt of the issue, as you may anticipate from the enclosed extracts of a letter from Mr. O'Neill, Oriental Consul-General at London, dated June 8th:—

"In respect of the meat, I must tell you that in consequence of the very bad quality of much that has been sent from Rio Plata by different persons, the character of the whole has greatly suffered, and it will take a long time to restore the repute of such commodity, however excellent. This is exactly what I foresaw at the beginning, and against which evil I endeavoured to warn Señor Obes and the different members of the association, in my private report and in my private letter to you. It is greatly to be lamented that Sor. Oliden was not able to send a large quantity at first, and keep up the supply regularly, as by that means he would have prevented the market being spoiled by the noxious articles which have caused the name of Montevidean beef to be looked upon with dislike in England. I hope that things will soon take a different turn, and realize all our expectations."

IMPORTS

Our import market has been remarkably dull since the sailing of the French packet both in dry and wet goods. Our English dry goods importers complain that their stores are full and that country dealers are very scarce. The grocers, however, who have been doing a large business up to the end of the last month, find the demand slackening considerably. Sugars have a downward appearance. Teas—The last arrivals have not yet been disposed of. American flour is difficult of sale at cost price; the last sales effected, 5,000 barrels, ex Columbus, at 6½ pats. on board, This, of course, does not cover invoice price and charges. The price of native mill flour is from $37 to $38 per arr. Coal sells readily at last quotations, and the stock on hand is not to say large. American Pine—The last, cargoes sold fetched 42 pats. on board and we have every reason to think that it will maintain its price. But other articles of importation are abundant in our market, and difficult of sale.

Paraguayan tobacco is at present in great demand; that is to say, the new crop, but only for home consumption, and, as we are informed, for the purposes of mixing with the inferior classes of last year. The best Paraguayan tobacco sells well to-day at 26 rls., but no tobacco can be exported to the European markets at that price, nor indeed at any figure over 23 rls.

Paraguayan yerba shows a downward tendency, owing to heavy arrivals, and also to the impression that there are several thousand tercios in Corrientes waiting to be sent down. In Montevideo, however, it sells better than in Buenos Ayres, but the consumption is much less there than in B Ayres.

Salt is finding its way up in large quantities from Bahia Blanca and Patagonia, which notwithstanding the great demand, renders shipments from Cadiz rather dangerous. One or two trade dry goods auctions have come off since the sailing of the French packet. The goods sold well and realised full prices

Freights since July 4th.

British barque Medora to load dry hides for New York. The rate is supposed to be 1 ct.

British barque Byzantium to load in Fray Bentos salted hides and tallow for England at 60s. and five per cent.

British barque Zambore to load in Uruguay for Liverpool direct salted hides and tallow at 53s. 9d and 5 per cent.

Hamburgh barque Johanne Jacob, to load salted hides, for orders, 57s 6d.

Mecklenburg brig, Dyebrandt, to load in Concepcion, hides and tallow, 47s. 6d. and 5 per cent.

Swedish brig Emma, to load in Uruguay, salted hides and tallow for orders, 60s. and 5 per cent.

Italian barque to load for Antwerp, at 35s.

English barque Courier to load for Antwerp in the round sum of £1200 sterling.

The Oldenburg schooner Albert to load in the Rio Negro salt at 4 rls. per fan.

Austrian barque Conservator, to load in the rivers, tallow, for Antwerp, 44s. and 5 per cent.

HIDE AND WOOL MARKET

The sales of wool, since the sailing of the French packet, have been very limited, owing to the fact, that there is very little wool in the country; but there is great speculation going on in sheepskins, which have gone up greatly during the last few days. The current selling price is now 3 dols. per lb., but there are buyers for the best skins at 3½ dols. Dry cowhides are rather weak at present, particularly those for North America. Salted hides are very firm, and with an upward tendency. The prospects of the coming clip are rather good: the wool will be far superior in quality to that of last year, owing to the excellent condition both of the sheep and camp, during the present winter, and the absence of 'dush,' which last year had such an injurious effect on the color of the wool. The clip of 1864 will not be so much in excess of that of last year, inasmuch as the increase in the flocks has been very small. We estimate the wool to be exported in the coming season will average from 90,000 to 95,000 bales. In Entre Rios and Santa Fe, the next wool exports will be considerably in excess of that of last year, as the lambing season has been very good in those provinces.

Total sales of the day 135,195
Average brokerage $40 m/c.

The state of our money market on the leaving of the packet is extremely critical; money is not to say tight, still only the very best signatures can be discounted under 1½ mo. Foreign gold was never before so abundant as at present, yet to-day paper money depreciated slightly. The National Government is doing all it can towards reconstructing the finances of the country, and pays with the most religious exactness the interest and amortization of the public debt, which is at present selling at a figure which admits of the most splendid speculation. Minister Gonsalez perseveres burning the currency each month, and in fact every act of our Finance Minister inspires confidence in the rectitude and honor of the present National Government.

The transactions in Exchange for the packet have been heavy, amounting to some £130,000, at 49½ to 49¾ per patacon. We understand that the agent or representative of the Argentine Central Railway Company has taken largely by this packet. We hear that the Mersey will take home heavy remittances in silver, we suppose Bolivianos.

There were no charters effected to-day on 'Change, and shipbrokers state that vessels are scarcer than cargo.

We call attention to the monthly statement of the Bank of Maua of Montevideo for June; by it will be seen the immense business which this bank is doing. The account current alone we see amount to over 240 millions of paper dollars, or 8¼ millions of silver dollars.

Dr. Radway's Regulating Pills.

"I would rather have one box of Radway's Pills than all other Pills in the world. They are Pills that cure. When you take a dose of these Pills you can depend upon the expulsion of the diseased humors from the system: the Liver, Bowels, Stomach, Kidneys, System, Skin and Blood are acted upon, and the bowels, after an operation induced by Radway's Pills, are left as clean and healthy as the stomach would be after a dose of lobelia. No straining, weakness, or wrenching pains, or piles or tenesmus, but a thorough and natural evacuation is the result." This is the testimony of one of the most distinguished physicians in the world. Never were truer words uttered "Radway's Pills are pills that cure." The sufferer of Liver Complaint, Dyspepsia, Constipation, Billousness, Jaundice, Dropsy, &c., may rely upon an absolute cure, by the use of one to six boxes. It is not necessary to take these pills for months or years to accomplish a cure. They should be used in all cases where a cathartic is required.

Just received Direct,

Letchfords Wax Vestas.

R. LETCHFORD & CO.

Hold themselves responsible for the quality of their Wax Vestas; and having recently built an extensive Factory especially adapted to this peculiar manufacture, they can bestow proper care on all the details which render their Vestas the best in the market. Customers, therefore, when ordering Wax Matches should be particular in requesting Letchford's "make," as others are often substituted.

SAVINGS BANK.

BANK MAUA & CO.,

No. 103 Calle de Cangallo,

BUENOS AYRES.

The immense advantages of Accounts Current are now so generally felt and appreciated in the two great emporiums of the River Plate, Montevideo and Buenos Ayres that there are very few Merchants who fail to keep one at the bank in which they place the most confidence.

The Bank of Mauá and Co in Montevideo has already provided for the working classes in that city a safe and profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing, and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of clerks, artisans, working men, and servants of all classes and conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a reserve fund in case of need, sickness, or old age, instead of spending them in the immoral gambling, in lotteries, and other frivolities.

The Bank of Mauá and Co. of this city, following the noble example of their firm in Montevideo, now offer the same facilities in this city, and will open a Savings Bank at No. 103 Calle Cangallo, from Nine a.m till Three p.m on Week Days, and on Sundays and Holidays from Ten a.m. to Twelve m., for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a pass book, in which will be entered the amount deposited and withdrawn

The depositor is permitted at any time to withdraw the whole or part of the sum deposited; in the former case the interest will be calculated up to date

The Bank of Mauá and Co. is sufficiently known to the Public by the benefit derived from the course of its operations, which are regulated on the strictest and soundest principles, and always directed to promote the general welfare

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres, September 19, 1863.

P.p. Mauá and Co.
WILLIAM LESLIE

CONDITIONS.

First—The Bank receives at interest any sum from Twenty-five Dollars currency Silver Dollar upwards.

Second—The interest allowed is six per cent. (6 p c) per annum, which is liquidated every six months.

Third—The depositors can at any time retire the whole or part of the money deposited.

Fourth—Once the money deposited exceeds twenty-five thousand dollars currency, or one thousand dollars silver, the depositor, if he wishes, can open an account current, according to the rules established by the Bank.

Fifth—In case the depositor loses his pass book, it can be replaced by another on paying twelve dollars currency, and advertising the loss in the public newspapers.

RIVER PLATE STEAM-SHIP COMPANY.

LIVERPOOL AND RIVER PLATE DIRECT.

NAMES OF STEAMERS.

LA PLATA,
PARANA, PARAGUAY,
URUGUAY, UNA.

One of these Steamers will leave Liverpool for Montevideo and Buenos Ayres on the 1st of each month.

Cargo will be received on board of the steamers 48 hours after their arrival, to be delivered in any part of the United Kingdom, or on the Continent, being forwarded by railway and steamer for account of the Company, the bills of lading being signed with these conditions.

As the object of the Company is to extend and facilitate the existing traffic between Europe and the River Plate, the rates of freight will be very moderate.

Specie and Parcels will be received until the day before the steamers leave.

The Steamer URUGUAY, now in port, will be despatched hence on the 26th inst., with a full cargo, calling at Montevideo to coal only. She has a fine large cabin on deck, capable of accommodating thirty cabin passengers, to whom Captain Smith guarantees his usual liberal treatment. These Boats are excellent opportunities for families visiting Europe, more especially when consisting of ladies and children.

For Freight and Passage apply to the Sole Agents,

HENRY A. GREEN & CO.,

Grand Hotel Du Louvre

The proprietor of the Grand Hotel du Louvre has the honor to inform the public that from 1st of July, he will open a table d'hote in his saloons at a fixed hour.

Breakfast will be served at 10 o'clock, dinner at 5 p.m. The bill of fare will be changed everyday, and the wines first class. The proprietor hopes by a good and choice selection of viands and an attentive service to leave nothing to be desired, in satisfying his numerous supporters. J 29 1m.

Notice.

The undersigned, Sole Agents in this city for the sale of the celebrated Brandy marked "JULES ROBIN & Co." hereby caution the public that a spurious article in imitation of the genuine is now being offered on sale, the bottles of which are forged with the name of the aforesaid manufacturers, but are easily detected from the deficiency of their name being branded in the corks and ours as sole agents on each bottle.

Buenos Ayres, July 4th, 1864.
